Our exclusive range of energy saving blinds are both smart and beautiful. Proven to reduce your heating and cooling costs by up to 42%, Thermacell cellular blinds are the perfect choice for both the home and office.

Cellular Blinds features

- ✓ Reduces temperature transfer through windows
- ✓ Block-out or filter light with protection from 99.9% of UV rays
- ✓ See more of the outdoors with a minimal stack height
- ✓ Colour matched slimline head and bottom rails
- ✓ Cordless and motorised options

Lux

- ✓ Best insulation for your windows
- ✓ High quality components
- ✓ Stylish designer head rail system
- ✓ Different control options including motorised

Our Classic and Lux ranges are defined by their different head rails and control options. Classic Thermacell blinds represent the standard cellular honeycomb blind supplied in today's market with colour matched head rails and standard cord lock control.

Lux Thermacell blinds offer a stylish head rail system with many control options: Monorise clutch, cordless, Ezilift motorised wand, or add that bit of extra luxury with our motorised wireless remote control.

Fabric choices

We offer an extensive range of luxurious fabrics, from translucent to blackout, sheer and linen look, giving you all the options needed to satisfy your energy saving and décor needs.

How do they work?

Thermacell cellular blinds work by trapping air within their cell shaped pockets. This layer of insulation then creates a thermal barrier between the window and your living space.
